

Pictures from September & October weddings

The pictures below are all from actual weddings at the chateau. We also have many holiday and corporate groups hence the possible gaps between the dates. The weather is usually warm and dry from March until late October. We can host outdoor ceremonies/cocktails all the year round and receptions/dancing party can be outdoors until mid-October (some couples prefer to use the Orangery as it looks more formal even if the weather would allow to host an outdoor reception).

Polly and Michael celebrated their wedding in the French countryside at **CHATEAU DE VARENNES**. The couple let the breathtaking scenery of the historic estate take center stage and hired **WEDDING FACTORY** to take care of the details. The result is a stunning day filled to the brim with classic romance and gorgeous florals by **UN ETE A LA CAMPAGNE**. To reduce stress, Polly and Michael trusted the professionals they hired and "turned up and enjoyed a wonderful celebration." And what a spectacular celebration it was and we're thrilled to share the beautiful images captured by **KYLEE YEE PHOTOGRAPHY**.

What made the wedding special and unique?

Having spent much of my childhood in France and also both being fascinated by the beauty of Chateaux across France, we loved the idea of being married at a French Chateau. So many locations in England are picturesque but due to numbers you tend to just be in the grounds of beautiful stately homes rather than enjoying the property itself. There was no comparison when we realized we could take over the stunning Chateau de Varennes for a weekend and have a reception in the stunning orangery. It really was very French and romantic. We followed the wedding with a pool party the next day which meant a second chance to celebrate with your guests.

"We chose *Château de Varennes* as aside from it being a beautiful venue in a gorgeous location, the estate also had its own chapel within the grounds which was really important to us. The set-up of the venue meant that everything could happen all in one place, the wedding and accommodation, which was perfect as we had many friends/family who had travelled from across the world to attend the wedding. In addition, the venue was close to local vineyards and places that guests could take some time to visit during their free time."
